Work Experience

Freelance / Academic Projects — Software Engineering (2022 — Present)

- Designed and implemented multiple software projects using Java and Python.
- Built full-stack web applications using HTML, CSS, JavaScript, Node.js.
- Integrated database-backed features with MySQL/PostgreSQL and practiced cloud SQL administration.
- Collaborated with peers using Git/GitHub for version control and team projects.

Website Developer — Web Development Company (2021 — 2022)

- Built and maintained responsive websites using HTML, CSS, JavaScript.
- Translated UI/UX designs into functional, user-friendly websites.
- Debugged, optimized, and ensured cross-browser compatibility.

Game Developer (2D Projects) — Indie Team (2020 — 2021)

- Developed 2D game mechanics and integrated assets.
- Worked with small teams, improving communication and collaboration.
- Leaned fundamentals of graphics pipelines and prototyping.

Projects

- **AI Agent Sandbox** Created a simulation environment where an intelligent agent interacts with blocks and environments, learning via feedback and logic without a fixed dataset.
- **Web Dashboard System** Built a local admin dashboard with login, user roles, order/inventory management, and REST API backend.
- **Books Management Platform** Developed a web application for managing books — uploading, categorizing, and displaying to users.
- **Embedded System / Arduino Project** Designed hardware + software prototype using Arduino to collect sensor data and interface with a dashboard or system.

Technical Skills

- **Programming Languages:** Java, Python, C, C++, JavaScript, HTML, CSS, Assembly
- **Frameworks & Tools:** Node.js, Express, REST APIs, React (basics) **Databases & Cloud:**
- MySQL, PostgreSQL, Cloud SQL (Administrator level) **Other Areas:** Arduino, Embedded
- Systems, AI Agents, Voice & Chat Interfaces, Game Dev (2D)

Education

- **High School — Programming Focus (Secondary School) 2022 — 2025**
- **Egyptian University of Technology B.Sc. in Software Engineering / Computer Science (in**

Summary

- **Motivated software engineering student with experience in web development, AI agents,**
- **embedded systems, and cloud SQL administration. Skilled in Java, Python, C++,**
- **JavaScript, and database design. Seeking internship or junior developer role to contribute, learn, and grow.**

Certifications

- **CS50: Introduction to Computer Science — Harvard University**
- **Oracle Certified Java Programmer**
- **Cloud SQL Administrator**
